

Attend^{from} Anywhere

WATCH
INTRO VIDEO

Classroom quality training, wherever you chose to learn.

Attend from Anywhere gives you access to more curriculum, more often from the company you know and trust. Class sizes are restricted, so we can give you the attention you need to embed learning, with full interactions with the learning professional throughout the course.

What our clients say

"I found Attend from Anywhere to be a great alternative to onsite classroom training. The onscreen media stream and presenter view helped to make the whole training experience feel natural and immersive while maintaining conversations with the instructor/classroom through both audio and chat was also a breeze. Access to training systems was slick, reliable and comparable to any on site experience."

James Gill

Worried about equipment?

No need. It's simple — all you need is an internet-connected computer and a headset.

Why choose Attend from Anywhere?

Learn in
your own
environment

Learn with
delegates from
around the world

Save the expense
and inconvenience
of travel

Access more
curriculum than from
your current supplier
